Fire and forest management in central Tennessee workshop and field tour

September 29, 2017
9:00 AM – 3:30 PM

JOIN US at this free fire-science and forest management workshop and field tour! This will be a great opportunity to learn about fire and forest management in central Tennessee. This one day event will include indoor presentations on long-term prescribed fire effects on forest composition and structure, and a chance to see these practices, and more, in the field at UT's Highland Rim Forest near Tullahoma, TN.

More information is coming soon at: www.oakfirescience.com

The Oak Woodlands & Forests Fire Consortium and the UT Forest Resources AgResearch and Education Center are excited to co-host this free workshop and field tour.

SAF and TWS continuing education credit anticipated!
